DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or make obvious the claimed aircraft engine thrust management system. Specifically, the prior art fails to show an aircraft thrust management system comprising the operation of all steps in terms of a percentage of thrust, including the calculation of thrust required for a particular operation, actual thrust being produced by the engine, a target thrust setting, a control thrust setting, displaying the thrust parameters, and varying the percent commanded thrust to produce an optimal amount of thrust.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-25 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kamathe et al, Blondel et al, Greene, Lambregts, Gast, Blechen, Bissey et al, Zweifel et al, and Miller are cited as being of interest since they disclose aircraft engine management system.
